

# Kurt William

Front End Web Developer

## About

---

Hi, I'm Kurt! I am a Front-End Web Developer based out of Toronto, Ontario. Although I have always been interested in technology, my passion for Web Development was sparked when working on a WordPress Website at Optimize Wealth Management. With both real world experience and a Bachelor's of Accounting degree I am an interesting mix of business and technology.

## Skills

---

HTML5	APIs
CSS3	Firebase
Sass	Gulp
JavaScript	Git and Github
jQuery	Responsive
React	Design

## Volunteering

---

Ladies Learning Code 2017  
Helped new coders learn HTML and CSS by mentoring at one day workshops

## Selected Work

---

### Word Sandwiches - Single Page React App

Word game that pulls words from an API, scrambles them and puts them inside each other. Find them all!  
[kurtwilliam.com/word-sandwiches](http://kurtwilliam.com/word-sandwiches)

### New You - Javascript and API App

Alias generator for criminals. Pulls info from 3 separate API's and displays it as the new you.
